LANDOVER HILLS, MARYLAND 20784

Volunteer Agreement for Issuing Scott Face Piece and/or Regulator

In order to provide accountability for the face pieces and/or regulators being issued to individuals, it is required that the personally issued face piece and/or regulator are inspected and tested on an annual basis. This will be performed in conjunction with the individual's Annual Fit Test. Failure of the individual to provide their face piece and regulator on an annual basis will result in a deduction of the replacement cost from the station management fund.
